## 5th ANNUAL PRAXIS PROGRAM SUMMER WORKSHOP REFLECTING ON PRAXIS AND THE UNIVERSITY

Paris, France • May 20-27, 2019

*In the 3-day workshop, our reflections on Praxis and the University will be framed by Bernard Lonergan's questions for educators. Faculty will have the opportunity to continue the discussion that has become foundational to the meaning of the University's mission. We will also reflect on creating and healing as the result of the dynamic intersection of GEM and the presence of God's Spirit in our interiority. We will examine the role of the imagination as a pathway of the Spirit in our reflections. Time for fellowship and exploring the City of Lights, with private tours of the Louvre and Notre Dame, and a dinner cruise on the Seine.*
